

Interreg 2 Seas Project DERMA Industrial Matchmaking and Showcase Event

2-5pm, 28th September

De Oude Vismijn, Ghent, Belgium

You are cordially invited to attend a free stakeholder matchmaking event on the subject of chronic dermal wounds and wound dressings hosted by the Interreg 2 Seas project, DERMA (www.derma2seas.eu), on the afternoon of 28th September 2017 at the venue De Oude Vismijn, Ghent, Belgium. The event will be followed by a boat trip with refreshments.

The objective of DERMA is to develop new interventions for the management and treatment of dermal ulcers and related skin conditions. By addressing market and patient needs, the project will deliver advanced new technologies ready for exploitation by industry to manufacture improved products for the treatment of patients.

Interreg 2 Seas Project DERMA Industrial Matchmaking and Showcase Event

2-5pm, 28th September
De Oude Vismijn, Ghent, Belgium

The Project DERMA event is organised in conjunction with the conference, ADVANCED MATERIALS for BIOMEDICAL APPLICATIONS (AMBA), which celebrates 10 years of polymeric biomaterial research in the Polymer Chemistry and Biomaterials Research Group at Ghent University.

On the morning of the 28th prior to the free DERMA matchmaking session, an AMBA-led industrial event will be held, where companies will have the opportunity to:

- Shortly introduce their company
- Give insight in R&D @ company level
- Present tech offer/tech requests

If you wish to attend the DERMA conference to learn more about the project and/or schedule a meeting with a DERMA member to discuss a potential partnership, please register [HERE](#).

The AMBA conference takes place September 27th–29th 2017, Ghent.
